MD AKRAM

FRONT-END DEVELOPER

PROFILE

I am a passionate front-end developer committed to creating visually appealing and highly responsive web interfaces. With a strong foundation in modern web technologies, my goal is to provide seamless and engaging user interactions.

I am excited about the opportunity to bring my skills to your organization, and I am confident that my contributions will positively impact your team's success.

BASIC PROJECTS

Study Point

- Developed and deployed a React-based Study Point application enabling user signup, login, course access,
- and interactive features like contact forms. Streamlined educational content access for users.

Easy Shopping

- Developed and deployed a React-Redux-based Easy Shopping application.
- Features include a dynamic homepage displaying items and a robust cart system allowing users to add and remove items efficiently, enhancing the online shopping experience.

Top Tension Course

- Top Ten Courses app where students can like courses and filter by categories such as business, development, and lifestyle for enhanced user experience.

Developer Blogs

- Developer Blogs app where developers can view the latest news about development. Clicking on headings or tags opens detailed pages for more information.
- The app showcases current trends, allowing developers to stay updated and easily access relevant articles, enhancing their learning and productivity.
